SAFETY DATA SHEET

| | TSH Flex® reagent cartridge | SDS # : | DEDM0084 | | |
|---|---|-------------------|--------------|--|--|
| Section 1. Identif | Section 1. Identification | | | | |
| Product identifier | : TSH Flex® reagent cartridge | | | | |
| Product code | : K6412, 10445104 | | | | |
| Product type | : Liquid. | | | | |
| Relevant identified uses of | the substance or mixture and uses advised against | | | | |
| Not applicable. | | | | | |
| Manufactured/supplied | Siemens Healthcare Diagnostics Inc. 511 Benedict Avenue Tarrytown, NY 10591-5097 USA 1-877-229-3711 | | | | |
| Emergency telephone number | (800) 424-9300 (CHEMTREC) (24/365) | | | | |
| Section 2. Hazard | Is identification | | | | |
| OSHA/HCS status | : While this material is not considered hazardous by the OS Standard (29 CFR 1910.1200), this SDS contains valuabl safe handling and proper use of the product. This SDS sh for employees and other users of this product. | e information cri | tical to the | | |
| Classification of the substance or mixture | : Not classified. | | | | |
| Additional information | : Not available. | | | | |
| | Not available. | | | | |
| GHS label elements | | | | | |
| Signal word | : 📈 signal word. | | | | |
| Hazard statements | : No known significant effects or critical hazards. | | | | |
| Precautionary statements | | | | | |
| Prevention | : Not applicable. | | | | |
| Response | : Not applicable. | | | | |
| Storage | : Not applicable. | | | | |
| Disposal | ∴ Not applicable. | | | | |
| Hazards not otherwise classified | : None known. | | | | |

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

| Description of necess | sary first aid measures |
|-----------------------|--|
| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : Fush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : ₩ash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed

| Potential acute health effect | ts | | |
|--|----|---|--|
| Eye contact | : | No known significant effects or critical hazards. | |
| Inhalation | : | No known significant effects or critical hazards. | |
| Skin contact | : | No known significant effects or critical hazards. | |
| Ingestion | : | No known significant effects or critical hazards. | |
| Over-exposure signs/symptoms | | | |
| Eye contact | : | No specific data. | |
| Inhalation | : | No specific data. | |
| Skin contact | : | No specific data. | |
| Ingestion | : | No specific data. | |
| Indication of immediate medical attention and special treatment needed, if necessary | | | |
| Notes to physician | : | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | |
| Specific treatments | : | No specific treatment. | |

: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Protection of first-aiders

Section 5. Fire-fighting measures

| Extinguishing media | |
|---|---|
| Suitable extinguishing media | : In case of fire, use water spray (fog), foam or dry chemical. |
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: halogenated compounds metal oxide/oxides |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

2/9

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | action shall be taken involving any personal risk or without suitable training. acuate surrounding areas. Keep unnecessary and unprotected personnel from tering. Do not touch or walk through spilled material. Put on appropriate personal otective equipment. | |
|--------------------------------|--|-----|
| For emergency responders | specialized clothing is required to deal with the spillage, take note of any information Section 8 on suitable and unsuitable materials. See also the information in "For no hergency personnel". | |
| Environmental precautions | oid dispersal of spilled material and runoff and contact with soil, waterways, drains d sewers. Inform the relevant authorities if the product has caused environmental llution (sewers, waterways, soil or air). | |
| Methods and materials for co | nent and cleaning up | |
| Small spill | op leak if without risk. Move containers from spill area. Dilute with water and mop vater-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material d place in an appropriate waste disposal container. Dispose of via a licensed wast posal contractor. | • |
| Large spill | op leak if without risk. Move containers from spill area. Prevent entry into sewers, ter courses, basements or confined areas. Wash spillages into an effluent treatment of proceed as follows. Contain and collect spillage with non-combustible, sorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in ntainer for disposal according to local regulations (see Section 13). Dispose of via ensed waste disposal contractor. Note: see Section 1 for emergency contact prmation and Section 13 for waste disposal. | ent |

Section 7. Handling and storage

| Precautions for safe handling | |
|--|--|
| Protective measures | : Fut on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

| <u>Control parameters</u> | | |
|----------------------------------|-------------|---|
| Occupational exposure lin | <u>nits</u> | |
| None. | | |
| | | |
| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants. |
| Environmental exposure controls | : | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| | | |

Individual protection measures

Control noromotoro

TSH Flex® reagent cartridge

Section 8. Exposure controls/personal protection

| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
|------------------------|---|
| Eye/face protection | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. |
| Skin protection | |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. |

Section 9. Physical and chemical properties

| Physical state | : Liquid. |
|--|---|
| Color | : Not available. |
| Odor | : Not relevant/applicable due to nature of the product. |
| рН | : Not available. |
| Flash point | : Not available. |
| Flammability (solid, gas) | : Not relevant/applicable due to nature of the product. |
| Relative density | : Not available. |
| Solubility(ies) | : |
| Not available. | |
| Solubility in water | : Not available. |
| Partition coefficient: n- octanol/water | : Not relevant/applicable due to nature of the product. |
| Auto-ignition temperature | : Not available. |
| Viscosity | : Not relevant/applicable due to nature of the product. |

Section 10. Stability and reactivity

| Date of issue/Date of revision | : 1/18/2024 Date of previous issue : 5/12/2017 Version : 1.06 4/9 |
|------------------------------------|--|
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| Incompatible materials | : No specific data. |
| Conditions to avoid | : No specific data. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Chemical stability | : The product is stable. |
| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely : Not available. routes of exposure

Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
|--------------|---|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact | : No specific data | a. |
|--------------|--------------------|----|
| Inhalation | : No specific data | a. |
| Skin contact | : No specific data | a. |
| Ingestion | : No specific data | a. |

Delayed and immediate effects and also chronic effects from short and long term exposure

| Date of issue/Date of revision | | : 1/18/2024 | Date of previous issue | : 5/12/2017 | Version : 1.06 | 5/9 |

| Other adverse effects | : No known significant effects or critical hazards. | | |
| Section 13. Dispo | sal considerations | | |
| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal | | |
| | of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any | | |
| | regional local authority requirements. Dispose of surplus and non-recyclable products | | |
| | via a licensed waste disposal contractor. Waste should not be disposed of untreated to | | |
| | the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered | | |
| | when recycling is not feasible. This material and its container must be disposed of in a | | |
| | safe way. Empty containers or liners may retain some product residues. Avoid | | |
| | dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. | | |
